

IMPACT OF PSYCHONEUROBICS CHARGING ON HOMEOPATHY MEDICINES FOR EAR NOSE THROAT (ENT) PATIENTS

Munish Sabharwal

Phd Scholar, Yoga Samskrutham University, Florida, USA.

Munish Sabharwal, is a Gold Medalist PG Diploma studies in Psyc Neurobics from the Tamil Nadu Physical Education & Sports University, as well as student of Homeopathy who is Life member of South Delhi Homeopathy Association awarded by National Homeopathic Conference for valuable contribution to cause of Homeopathy. He has also been awarded as, “SIGFA Ambassador” for his contribution to Psyc Neurobics. He is a Phd Scholar and undergoing his research from Yoga Samskrutham University, Florida, USA. He has been an investment banker for 27 years with stints at JM Morgan Stanley, IDBI Capital & The Times of India Group.

PURPOSE

To study the impact of treatment of ENT patients using homeopathy and Psychoneurobics in an integrated manner with guidance of Naturopathy where possible.

Psychoneurobic application:

The third chakra from top (Vishudhi chakra) the Sky Blue Chakra when we have continuous feeling of emotional peace. The resonance is that the person is a peaceful soul. The chakra closes when we have negative emotions of stress, ego and anxiety.

The imbalances in sore throat, stiff neck, poor communication, teeth and mouth problems, speech and thyroid problems. It also results in poor auditory memory, inability to express oneself in words. Tuning to the sky blue colour helps to balance this centre.

Naturopathy Application:

All diet which has Psychoneurosis has discouragement towards non vegetarian diet, onion and garlic. However Garlic and Onion where required are taken in medicine form. All products made of sugar, cakes, jam, marmalade and sweets are to be avoided in ENT problems, furthermore the common salt is also to be restricted and no aluminium vessel be used.

Data for ENT Cases treatment

Patient	Emotional		Physical		Sleep	
	Pre Treat	Post Treat	Pre Treat	Post Treat	Pre Treat	Post Treat
Shubham	4	6	4	6	6	6
Ram Singh	3	4	3	4	5	7
Parvati	3	4	2	5	3	6
Umed Singh	3	3	4	4	5	5
Pawan	4	6	3	7	6	6
Amit kumar	4	5	5	5	5	5
Ananad kumar	4	6	4	7	4	7
Yogesh Gupta	4	6	4	7	3	6
Rajkamal	3	7	2	7	4	6
Average	3.6	5.2	3.4	5.8	4.6	6.0
change %		47%		68%		32%
		Bad	Average	Good		
	Emotional	1 to 3	4 to 6	7 to 9		
	Physical	1 to 3	4 to 6	7 to 9		
	Sleep	1 to 3	4 to 6	7 to 9		

Parameters-**Emotional Parameters –**

Emotion is Often intertwined with mood, temperament, personality, disposition, and motivation. The overall disposition of a patient is judged by the state of his /her emotions also. A positive disposition, or a negative disposition or emotion is directly linked to a bad or good health. The chakra of the bodies is blocked if the emotions are negative while they are open if the same are positive. The treatment sometimes makes the emotional disposition move up to better while sometime the natural positive disposition is something which helps the treatment. Sometimes because of the positive emotions the healing also becomes faster.

In this sample study there was a small jump of 47% in the emotional well-being of the patients which is a below average improvement.

Physical Parameters:

For a ENT patient, physical assessment includes examining the medical reports viz sperm counts, periodicity of the cycle, the ultra sound reports on the Uterus.

The assessment of the sample size showed a positive improvement of 68% from 3.4 to 5.8. This indicates, that there is an improvement in the physical symptoms though not as expected.

Sleep:

The sleep which the patient observed, is a self-assessment. The quality of the sleep is a very important attribute to the seed of healing of the patient and good health also contributes to the same. Checking the patient for the length of sleep as well as the quality was something which was found to be very important. Of the above sample the more points are given for good sleep and less points are given for poor sleep. Prior to the treatment while the average points scored was 4.6 while during the course of the treatment, when last recorded the point score of sleep had increased to 6. This is a significant improvement of 32%. By the principal of Psyconeurobics, a good sleep helps to get more divine healing energy and hence helps to get better health for the patient.

METHODOLOGY

After due systematic diagnosis of the ailment and coming to the cause of the problem, Incorporeal God Father is invoked and comfort is given to the patient that Almighty will shower his blessings and all rests in his hands, if the patient takes the medicine remembering HIM, then the medicine is given by the Pysco Neurobics principles of charging with Sky Blue light mentally. If the patient is cooperative enough than the patient is also advised to visualize Sky Blue light into the medicine before taking it in the morning. The appropriate mudra is advised if the patient is found amenable to accept it. Furthermore naturopathy principles of taking veg diet, keeping away from aluminium vessels and no sugar is advised.

DISCUSSION

Homeopathy has excellent remedies for ENT disorders. This is because homeopathic treatment is individualised on a person and his or her pathological condition. Moreover, homeopathic medicines along with Naturopathy diet and Psyconeurobics are prescribed after taking into account the patient's constitutional type like the physical, emotional, and psychological makeup and his or her medical history. An experienced homeopath determines all the factors, including miasma tic tendency of the patient before deciding any treatment.

MAIN HOMEOPATHY MEDICINE USED & DESCRIPTION:**ENT**

Cimifuga-Ceribo spinal meningitis

Antim Card-Tonsils

Bryonia –Tonsils

Brytacarb- This is the Head remedy for chronic enlargement of tonsil. Children are slow in development with backward mentality. Post nasal catarrh and bleeding from nose. Suppuration of tonsils on catching cold. 200 dilution in chronic cases 6 in acute cases is what has been used.

Phytolaca-Acute Tonsils

Merc sol-Hard of hearing

Phosphorous-Eye itch

Tonsillitis- In tonsils, where these glands inflame it will help if the patient is given Aconite in the early stages. If the tonsils become inflamed and give throbbing pain than Balledona will be fine. If it becomes severe and gives pricking pain and the abscess is broken and does not heal in such case Silicea may be given. If the pain is on the left side Merc Iod may be given. If there is fever along with inflammation than Streptococin may be given. If the pain shoots to the ear. Hoarsness and dry cough is there, hot drinks difficult to take while it's ok to take cold drinks in such cases Phytolaca is the remedy,

Deafness- Kali Mur is considered the general remedy for deafness, possibly caused by inflammation/obstruction of Eustachian tube. While if deafness is caused by abscess or perforation in ear Hepar Sulph is good. Merc Dulcis is for catarrhal deafness in elderly people. If hearing is better in noisy atmosphere in such case Graphites or Pilocarpinum is advisable. Pulsatilla which has numerous uses is found to be useful if deafness is caused by Abuse of quinine. Bryta Carb is also a good remedy for deafness and cracking of noises. Mephites is recommended to be given for a long duration say 6 months to a year if the deafness is from birth. Medorrhium, is when there is total deafness, at night feeling as if a worm in ears

ENT

The challenges and success of the treatment have been found on the following grounds:

Visualisation of Sky blue Light: This is the blessing of God almighty for energising the ENT

Name	Age	Sex	Since	Diagnosis	Treatment	Learnings
Shubham	7	M	29-01-2016	No appetite	Hydrastica 30	better
				Tonsils	Antm Crd 200	
				constipation	podo	
Ram Singh	70	M	06-05-2018	Vertigo	Cimifuga 200	better
Parvati	52	F	19-08-2017	Vertigo	Cimifuga 200	better
Umed Singh	39	M	03-05-2014	Tonsils /cough in n	Bryonia 200	better
Pawan	22	M	19-06-2017	tonsils acute	Bryta carb Phytolaca200	better
Amit Kumar	30	M	06-05-2018	tonsils acute	Bryta carb Phytolaca200	better
anand kumar jha	9	M	06-03-2018	blood from nose	Bryonia 30	better
yogesh gupta	56	M	19-08-2017	ceribo spinal meni	cimifuga 200	better
				tonsils	bryta carb	
Raj kamal		44	M	Teeth pain		better
				Root canal pain	heckla lava, calc	
				Infection in gums	flour, mazerium, merc sol	

Medicine is energised with Sky Blue light mentally, if done on a daily basis by the patient it has better results. Also not having faith in the almighty power becomes a limitation.

Time Gap after taking medicine: The challenge of many patients not following the norm of taking the medicine empty stomach with discipline increases the recovery time and the efficiency of the entire process. So despite of the possibility of having better results, the opportunity is lost or reduced in many cases.

Status of patient at the time of starting the medicine: Some patients have multiple ailments, apart from the ENT disorders, administering treatment to them with the same effectivity is lost considerably.

Emotional build-up of the patient: Patients who have will power vis a vis with inherent negativity and no feeling of purity, excess sexual activity show a substantial difference in

treatment response. Since this chakra gets blocked with absence of purity, and opens with feeling of purity, the best of treatment does not help if the patient has no purity as an outlook and visa versa.

Regularity: Regularly taking the medicine and visiting the clinic also has direct correlation with the recovery.

Other ailments: Allopathic medicines being taken for other and same ailments is sometime found to hinder the recovery/dilute the findings.

The results have been not good and the improvement has been in below average in most cases. Limitation has been where the patients have not taken medicine or some of them have been taking allopathic medicines or for other reasons like other ailments or unknown reasons. Possibly more time may be taken before results come positive.

SIGNIFICANCE OF THE STUDY

Homeopathy combined with Psychoneurobics and Naturopathy can provide relief from ENT problems. Homeopathy & Naturopathy can ensure cure / better relief ENT problems without any side-effects.

CONCLUSION

In 9 cases out of 9 the impact was found positive. These cases varied from Vertigo, Ear infection, teeth and gum pain and infections. No case of thyroid was however was in the sample and hence not treated.

Of the 9 sample size the ENT improvement was seen by all. The Emotional and Physical profile of the patient improved by around 47% & 68% while the sleep improved by around 32%. All these parameters are clearly indicating towards more efforts and increasing the sample and period of the study.
